

Generalized Compliance Reviews

TCG will review the institution's current compliance program and develop a specific list of recommendations. This evaluation is based upon lengthy interviews with both athletics (coaches, student-athletes, athletics department staff members, etc.) and non-athletics (Registrar, financial aid officer, bursar, admissions officer, etc.) staff. Compliance areas such as recruiting, eligibility certification, booster groups, complimentary admissions, student-athlete employment, etc. are reviewed. The specific areas are determined by the institution. Assuming the appropriate areas are determined, the review would meet the provisions of NCAA Bylaw 22.2.1.2.(e) for the Division I athletics certification program.
